### Curved Full HD Resolution

AOC's C3583FQ features a curved panel with detailed 2560 x 1080 resolution and fast 144Hz refresh rate via DP/Adaptive Sync. The VA panel has wide-viewing angles, allowing users to enjoy consistent color uniformity and accuracy at all angles. The C3583FQ has 50,000,000:1 dynamic contrast ratio with 4ms response time.

### Immersive Visual Experience

Human eyes are not flat and perceive the world around us in angles and curves. Curved monitors deliver the best viewable angles that allow users to see more. Aside from the appeal of an immersive gaming or work environment, there's a benefit in reduced eyestrain from a consistent radius between your eye and the

### Rich in Connectivity

C3583FQ features VGA, DVI, two MHL-HDMI, and two Display Ports connectivity, with two 5-watt speakers and audio line-in/out for audio needs. MHL connection allows users to connect their smart device on to the bigger 35" screen while charging their devices simultaneously.

### Multi-Monitor Curved Setup

Curved displays allow for an impressive multi-monitor setup as borders flow and blend into each other. Users will be able to experience peripheral vision realism in first person shooters or racing games, just like if you were there in real life.
