AOC “Green Monitors” Continue to Push the Envelope with Style, Performance and Energy Efficiency

AOC releases, the 2436Vw, An EPEAT Gold Certified Monitor.

Fremont, CA (PRWEB) August 21, 2009 – AOC’s 2436Vw is part of a new generation of displays, which doesn’t have to sacrifice performance for energy efficiency. The 2436Vw is a 24-inch widescreen monitor that supports high-definition viewing and low-energy consumption. The 2436Vw is now available at Fry’s for suggested MSRP of \$219.99.

The 2436Vw is encased in a glossy, piano-black casing that reflects its design concept: Uncomplicated Efficiency. The monitor has received a gold EPEAT rating from the Green Electronics Council. The EPEAT rating provides a clear and consistent set of performance criteria and it also acknowledges AOC for being active in reducing our environmental impact. Furthermore, the simple, OSD menu is graphics-based and touch controlled which makes the 2436Vw more convenient and user-friendly.

“Lowering our products’ energy consumption has become one of our top priorities. The great thing about the 2436Vw is that we have managed to lower power consumption significantly, while still producing quality, stylish and high-performance product,” said Robert Velez, Marketing manager, North America, AOC.

The 2436Vw features a 60,000:1 Dynamic Contrast Ratio, for color/shade differentiation; a 5 ms response time, to eliminate lag in fast-moving graphics and both digital and analog inputs; As well as, a USB pass-thru connector for convenient access to a USB connection.

2436Vw Specs

- 24" Widescreen, 16:9 Aspect Ratio
- 23.6W Viewable Image Size
- 1920 x 1080 Max Resolution
