E2752She

27-inch class slim 2ms LED monitor with two HDMI ports

The e2752She is a 27" widescreen LED-backlit monitor that delivers stunningly crisp and impressive image quality, as well as solid performance with a two millisecond response time. Ideal for multimedia applications, the energy efficient display also features two HDMI ports and a 3.5mm audio port for earphone.

Key Features

- 27" viewable image and 16:9 aspect ratio
- Screen+ software to split display into four self-contained work areas
- Direct-insert horizontal connectors for ease of connecting your cables
- Audio in/out with a 3.5mm audio port for earphones
- 2ms (GTG) response time for smooth motion playback
- Multimedia connectivity with VGA and 2 HDMI ports
- VESA 100mm Wall Mount compliant feature

AOC

Attractive slim and user-friendly design

The e2752She is designed with a glossy black bezel and base. The monitor is able to display 16.7 million colors and offers a 2ms response time that provides crisp, clear images even in fast action sequences while gaming or watching action films. The ultra-high dynamic contrast ratio of 20,000,000:1 reveals more depth and detail in darker scenes, with an audio port for plugging in 35mm earphone jack or your audio speakers. The versatile monitor is VESA 100mm wall mount compliant, meaning that it can be used on a desktop or conveniently mounted on the wall to save space. The monitor's slim and streamlined appearance is complemented by ergonomic, user-friendly design.

Features you will appreciate

The monitor settings can be adjusted via the on-screen menu system, which is available in 14 languages including English, French and Spanish. The iMenu option also allows the user to change settings using only the keyboard and mouse, so that it is not necessary to reach up to the screen to adjust contrast, brightness and other preset modes. Other bonus features include embedded Screen+ software that divides the screen into four self-contained work areas for improved productivity, and an Off Timer that sets an alarm clock to turn off the monitor automatically. The e2752She comes with VGA and two HDMI with HDCP for easy connectivity and features easily accessible digital and power connections that are rear-facing for direct insertion, a placement that is much more convenient than the more common downward-pointing ports.

A monitor that is eco-friendly

Along with delivering strong performance, image quality and bonus features, the ENERGY STAR compliant e2752She also reduces energy costs and environmental impact. The display's LED backlight is completely free of toxic Mercury, and the monitor also includes an eSaver feature that lets the user preset power conservation modes for the display when the PC is not in use. The monitor's Power Saving Mode uses 50 percent less power, and Standby Mode uses only 0.1w.

E2752She Specification

Cabinet Color	Glossy Black Bezel and Base
Panel	TFT Active Matrix LCD, LED Backlight 27", 16:9 Aspect Ratio 27" Viewable Image Size, Diagonal
